

# Report for I&F Neuronal Network Simulation

## Week 11

Kai Chen

May. 5, 2017

# Raster Plots

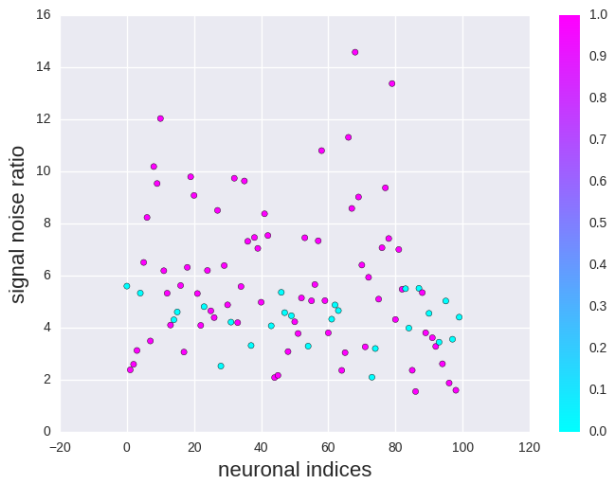

Histogram of spikes. Vertical axis indicates the number of spikes per millisecond.

# Mean Firing Rate

# Signal Noise Ratio

ex

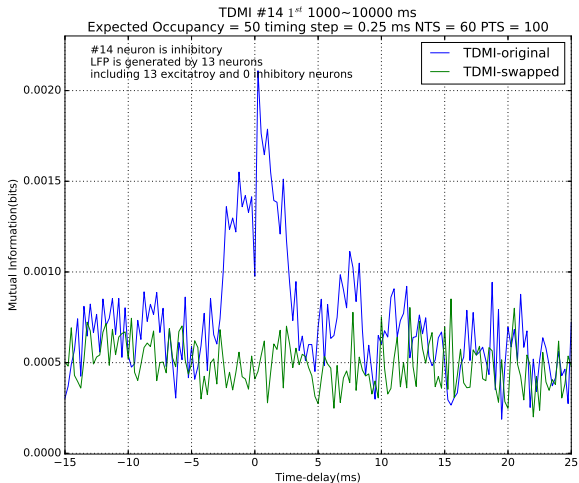

# Signal Noise Ratio

# Signal Noise Ratio

# Strange behavior for fewer Noise Ratio

# System with spike transmitting delays

# Questions

- 1 What is the advantage of TDML analysis of spike and field potentials compared with GC method.
- 2 About theta dipole;
- 3 What is ripple oscillation?
- 4 coherence spectrum analysis?
